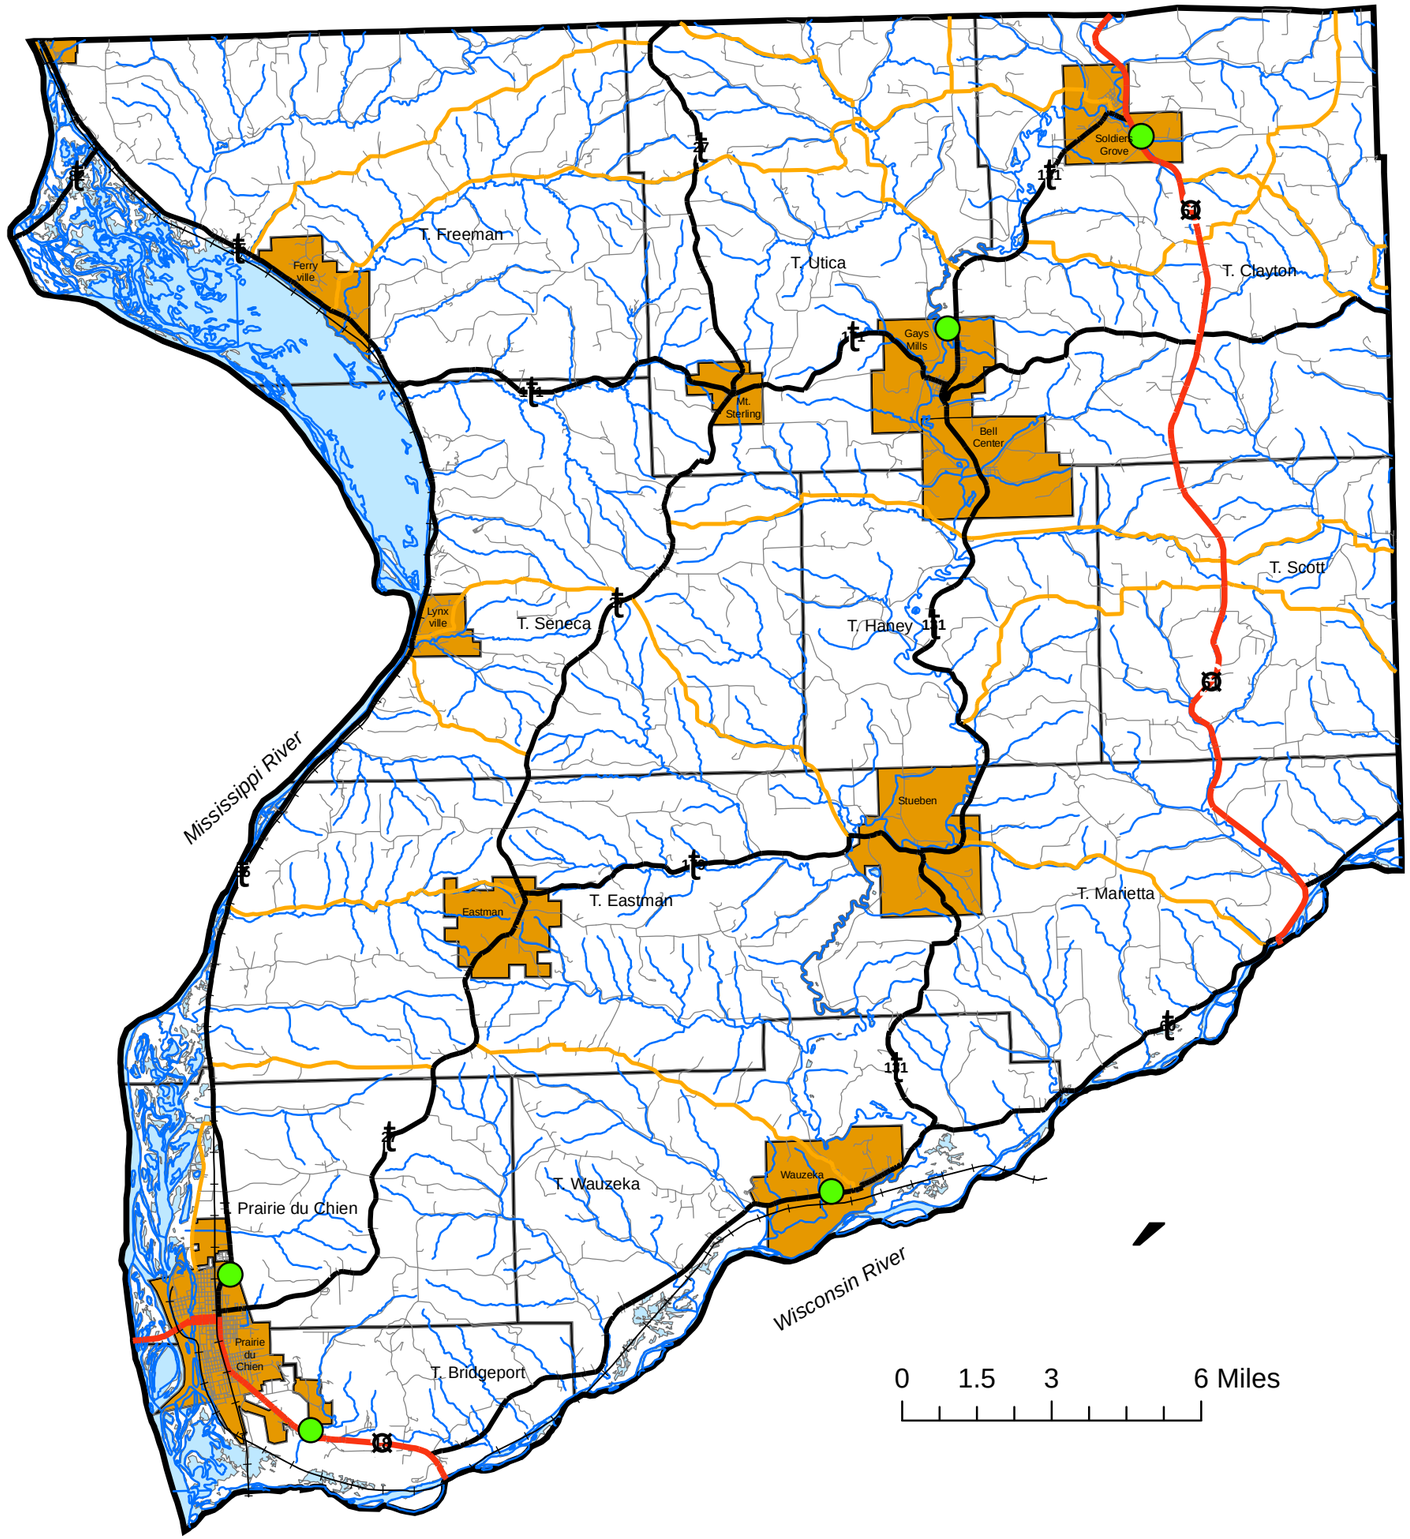
Map 7.02 Crawford County
Sites Suitable for
Business and Industry Expansion



Sites Suitable for Business and Industry Expansion

The map includes the location of five business/industrial parks in the county where future industrial uses are recommended to locate due to these locations being served by public sewer, water and transportation facilities. In addition to the business/industrial parks and consistant with the Land Use Element, commercial business are also recommended to utilize existing vacant business sites and parcels that are served by public facilities. In the future, as additional business/industry areas are identified by local units of government the map will be revised.
