## Appendix J: Pierce County Summary

The Survey Research Center received 146 surveys from Pierce County. Based on the estimated number of households in the County as reported by the American Community Survey $(14,538)$, the results are expected to be accurate within plus or minus 8.1 percent.

Demographic Profile. Pierce County respondents were more likely to be male and at least 45 years old. About 70 percent said they are employed or self-employed, and 28 percent said they are retired. Their household was more likely to consist of two adults with no minor children. Two-thirds of the respondents reported annual household incomes greater than $\$ 50,000$. More than seven in ten respondents had some post-secondary education, with about half having completed a bachelor's or graduate/professional degree program. Both the income and education levels in Pierce County are higher than average for the state or region. About half have lived in the County for at least 25 years.

## Demographics

| Gender | Count | Male | Female |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 145 | 72\% | 28\% |  |  |  |  |

|  | 144 | 33\% | 28\% | 40\% |  |  |  |

- A large majority of Pierce County respondents agreed that counties should be allowed to share law enforcement costs with other counties. Roughly 70 percent agreed that programs should be developed to increase the amount of locally produced food in schools and other local institutions.
- Solid majorities of Pierce County respondents agreed that the economic and ecologic impact of sand mining should be studied further, that they would be willing to see an increase in the sales tax as a means of reducing property taxes, and that manufacturing will continue to be an economic driver for the region.
- Half of Pierce County respondents disagreed that businesses that expand or start-up in Wisconsin should pay no state corporate income tax for the first 5 years of operations.

## Taxes and Economic Development

| Topic | Count | Agree | No <br> Opinion | Disagree |
| :--- | :---: | :---: | :---: | :---: |
| Cost Share Law Enforcement | 144 | $81 \%$ | $10 \%$ | $10 \%$ |
| Local Foods in Schools | 144 | $72 \%$ | $16 \%$ | $12 \%$ |
| Study Ecology of Sand Mining | 143 | $65 \%$ | $23 \%$ | $12 \%$ |
| Raise Sales Tax/Reduce Property Tax | 145 | $64 \%$ | $12 \%$ | $24 \%$ |
| Manufacturing Economic Driver | 141 | $60 \%$ | $24 \%$ | $16 \%$ |
| Study Economics of Sand Mining | 145 | $56 \%$ | $28 \%$ | $17 \%$ |

| No State Corp Income Tax | 145 | $34 \%$ | $16 \%$ | $50 \%$ |
| Need More Lodging | 144 | $31 \%$ | $32 \%$ | $37 \%$ |

- Pierce County respondents were nearly unanimous in their belief that fishing would be acceptable and successful as a tourism activity.
- Other recreational/tourism activities that high proportions of Pierce County respondents felt would likely be successful included: hunting, bicycling, non-motorized water activities, and golf.
- Majorities of Pierce County respondents, ranging from about two-thirds to about nine in ten, said all other listed recreational and tourism activities listed would be acceptable in their communities, but over half of respondents believed that winter hill sports and tennis would not attract tourists to their communities.

Recreation and Tourism

|  | Accepted |  |  | Successful |  |  |

| Winter Hill Sports | 138 | 66\% | 34\% | 134 | 41\% | 59\% |

- About three-fourths of Pierce County respondents agreed that government regulations and funding are needed to protect natural areas. About two-thirds of respondents agreed that most new housing should occur in or adjacent to established communities where public services can be more economically provided even if that land is more expensive, that it is better to redevelop areas rather than expand into new areas, and that government regulations are needed to protect farm and forest lands.
- About six in ten Pierce County respondents agreed that they experience a high quality of life in their communities, but they are not so sure about the future. Only about four in ten agreed that the quality of life in their communities will improve in coming years, and about four in ten had no opinion as well.
- Only about a third of Pierce County respondents agreed that more local land use planning is needed, that local government officials and business leaders work well together, and that local special needs housing is adequate. Roughly four in ten respondents had no opinion about these three questions.

## Land Use, Housing, and Quality of Life

|  | Count | Agree | No <br> Opinion | Disagree |
| :--- | :---: | :---: | :---: | :---: |
| Gov't Regs Needed to Protect Natural Areas | 143 | $76 \%$ | $11 \%$ | $13 \%$ |
| New Housing Adjacent to Villages/Cities | 144 | $68 \%$ | $14 \%$ | $18 \%$ |
| Redevelop Rather than Expand To New Areas | 144 | $65 \%$ | $18 \%$ | $17 \%$ |
| Gov't Regs Needed to Protect Farm/Forest | 141 | $65 \%$ | $12 \%$ | $23 \%$ |
| Local Quality of Life is High | 143 | $62 \%$ | $23 \%$ | $15 \%$ |
| Sustainability Should Guide Development | 143 | $55 \%$ | $36 \%$ | $9 \%$ |
| Local Gov'ts Should Ensure Affordable Housing | 145 | $54 \%$ | $13 \%$ | $33 \%$ |
| Local Housing for Elderly Adequate | 145 | $52 \%$ | $27 \%$ | $21 \%$ |
| Gov't Regs Needed to Protect History | 143 | $49 \%$ | $22 \%$ | $29 \%$ |
| Local Community Accept Diverse Populations | 141 | $48 \%$ | $33 \%$ | $19 \%$ |
| Local Quality of Life Will Improve | 145 | $38 \%$ | $38 \%$ | $24 \%$ |
| More Local Land Use Planning Needed | 145 | $34 \%$ | $36 \%$ | $30 \%$ |
| Local Gov't \& Business Work Together | 143 | $34 \%$ | $45 \%$ | $21 \%$ |
| Local Housing for Special Needs Adequate | 145 | $30 \%$ | $44 \%$ | $26 \%$ |

- Among Pierce County respondents, solar energy is the most acceptable form of alternative energy. However, large majorities also said wind, hydroelectric, and biomass would be acceptable.
- The alternative energy sources Pierce County respondents felt would be successful in their communities were solar, wind, and burning biomass.
- Roughly half of Pierce County respondents said they do not believe that biodiesel production (whether from plants or animal fats), ethanol production (whether from waste/grasses or crops), and nuclear would succeed in their communities.

## Energy Alternatives

|  | Accepted |  |  | Successful |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Count |  | No | Count | Yes | No |
| Solar | 138 | 90\% | 10\% | 136 | 67\% | 33\% |
| Wind | 137 | 81\% | 19\% | 135 | 66\% | 34\% |
| Hydroelectric | 137 | 77\% | 23\% | 132 | 62\% | 38\% |
| Burning Biomass | 135 | 75\% | 25\% | 131 | 66\% | 34\% |
| Ethanol from Waste/Grasses | 136 | 72\% | 28\% | 130 | 49\% | 51\% |
| Ethanol from Crops | 138 | 72\% | 28\% | 133 | 44\% | 56\% |
| Biodiesel from Plants | 134 | 71\% | 29\% | 132 | 45\% | 55\% |
| Methane | 137 | 70\% | 30\% | 131 | 62\% | 38\% |
| Biodiesel from Animal Fats | 134 | 60\% | 40\% | 132 | 39\% | 61\% |
| Nuclear | 138 | 44\% | 56\% | 131 | 54\% | 46\% |
