

Mississippi River Regional Planning Commission EMSI Report

Potential Equipment and Metal Manufacturing Business Development Opportunities in the Mississippi River Region

This report identifies equipment and metal manufacturing industries that import their products into the Mississippi River Region counties of Buffalo, Crawford, Jackson, La Crosse, Monroe, Pepin, Pierce, Trempealeau and Vernon that have potential to be manufactured in one or more of these counties. This region has an existing equipment and metal manufacturing industry specialization. Additional business endeavors linked with import substitution strategies in these equipment and metal products may merit worthwhile results because of existing industry knowledge and synergies. Average earnings paid by industries that produce these products is also reported to give a better understanding of economic development benefits of these industries expanding. These industries also have strong supply chain needs that benefit the service sector of the economy. Equipment and metal manufacturing products are also an economic driver industry of Western Wisconsin and the entire State, with education and research resources to support them. [NAICS - North American Industrial Classification Code, Dataset Version: 2013.4 Class of Worker, Timeframe: 2012, Dataset Category: EMSI Complete, Region Name: Mississippi River Region, Counties: Buffalo, Crawford, Jackson, La Crosse, Monroe, Pepin, Pierce, Trempealeau, and Vernon]

This information is provided to you from the Mississippi River Regional Planning Commission (MRRPC) through a contract with Economic Modeling Specialists Inc. (EMSI). EMSI is an economic analysis firm that provides data useful in the strategic planning and impact assessment to educational institutions, workforce development boards, and economic development organizations. It allows users to conduct input-output analysis to better understand the impacts of an industry's expansion or contraction or simulate the effects an event will have on other businesses and industries. The data, reports, forecasts, and/or services provided by EMSI are generated using government data and proprietary processes. EMSI uses estimates when there are missing data points, and such estimates are subject to varying degrees of error. EMSI's data, reports, forecasts, and services may differ significantly from actual outcomes and are provided "as is" without warranty for a particular purpose or project. As such MRRPC makes no warranty or representation as to the accuracy, usefulness or reliability of the EMSI information being provided to you. Furthermore the MRRPC shall assume no liabilities for any losses that may result from you using or not being able to use EMSI information or for any damages that may result from you using EMSI through the MRRPC.
